## TELEGRAPHIC.

**BON JOSEPH ROYAL DEAD.**  
Winnipeg, Aug. 25.  
Hon. Jos. Royal, ex-governor of the Northwest Territories, died at Montreal on Saturday evening. The funeral will take place to-morrow.  
The late Hon. Joseph Royal was prominent in the public life of Manitoba and the Northwest for many years. He came to Manitoba in the early '70s, and almost at once became a member of the local government. He was a colleague for a time of the late Hon. John Norcross. Afterwards he entered the Dominion parliament for the county of Pomeroy. He was made lieutenant-governor of the Northwest Territories in 1888, and held that position for the full term of four years. At the close of his term as lieutenant-governor he went east to his former home in Montreal, and took up again his profession of journalism, in which he was engaged up to the time of his last illness. Joseph Royal, of the firm of Forbes & Royal, is a son of the deceased.

**HARVESTERS IN THOUSANDS.**  
To date 6,500 harvesters have reached the west.

**WHEAT IS ADVANCING.**  
Wheat prices advanced Saturday.

**THE BRITISH EDITORS IN MANITOBA.**  
A party of British editors spent Saturday in the Crystal City district of Manitoba.

**C. P. R. TO HAVE A BOAT OF THEIR OWN.**  
The C. P. R. will build a fast line of their own if not given the Atlantic contract.

**AN ALLIANCE OF PRESIDENTIAL FAMILIES.**  
Miss Vivian Sartoris, grand daughter of the late U. S. Grant, was married to Fred Roosevelt at Cobourg, Ont.

**SIR WILFRID IN FRANCE.**  
Sir Wilfrid will have an audience with President Loubet to-day. France may grant tariff concessions to Canada.

**WAGONS WORKS FOR TORONTO.**  
The Pennsylvania wagon works will be removed to Toronto.

**RED HOT TIME.**  
Dan Patch went a mile in 2.00 1-4.

**ACCIDENTS.**  
Mark MacKellie and his daughter were drowned in Blackstone lake, near Perry Sound, Ont.

Osceola Hart, of Indian Head, was fatally shot by a companion while duck shooting.

Two employees of the Le Roi No. 2, Resland, were drowned in the mine. W. Brown, of Trail, B. C., was drowned near Lethbridge.

**GENERAL.**  
The United States naval manoeuvres have resulted in a victory for the defense fleet and commander Pillsbury left.

President Roosevelt dealt with trusts and needed legislation in a speech at Providence, R. I.

A suit for slander, the result of a recent fire, has been entered at Port Arthur.

A number of Indiana residents have laid claim to portions of Philadelphia.

J. D. King, shoe manufacturer, Toronto, is dead.

Rev. R. W. Sumwell, of Ottawa, is dead.

Last Tuesday while driving up the hill at White Mud bridge, Mrs. Nelson Magee had an exciting experience. She had stopped about half way up the hill to breathe the horse, when the animal commenced backing up. In a moment the horse and all were over the embankment. Mrs. Magee managed to jump with her infant and both escaped with no more serious injuries than a very bad fright. The horse was rescued from his position by some workmen who were near at hand, but the rig was badly wrecked.

The police team made a spectacular dash on Saturday afternoon from the barracks to the land office. At one time it looked as though a serious mishap might occur, when the galloping animals took to the sidewalk in front of Gariepy & Lessard's store. They soon turned off to the middle of the street again, however. When caught the horses were uninjured and a bent axle was the extent of the damage to the wagon.

Thos. Anderson and his daughter, Mrs. Braithwaite, have returned from Calgary. It was Mr. Anderson's intention to visit the Yukon with his son, Wm. Anderson, chief engineer of the mine department. On account of the heavy rains, however, he decided to postpone his trip.

M. Aldons, chief of the Hudson's Bay Company, land department, will arrive on Wednesday's train to make a trip of inspection through this part of the country.

## LOCAL

A heavy hailstorm was reported last week at Bittern lake.

Geo. Gouin was among the successful sportsmen on Saturday. He had a good day at Big lake.

Miss Craig, of Minneapolis, formerly of the Sturgeon, is now visiting in town, and at her former home on the Sturgeon.

The new cable for the Clover Bar ferry went down to-day and the ferry is now ready for traffic. John Inguid will operate it.

Dr. M. W. Hill, D. B. Herriott and John Wallis, of Iowa Falls, Iowa, arrived on Saturday night to look over the Edmonton district.

Mrs. W. J. Walker and Miss Walker returned from Banff last week after a pleasant three weeks' holiday spent at the sanitarium there.

Dr. Till, R. Shaw, J. I. Mills and H. Cristman rose early on Saturday morning. Before breakfast they had, among them, bagged twenty ducks.

Thos. Fyche, of Montreal, general manager of the Merchants Bank, and Mr. Thos. Long, director, of Toronto, registered at the Alberta on Friday evening.

The ditch through the swamp on the 14th base, line west of town has been completed by Mr. Sanderson, and the road way levelled and improved. In all 8,600 feet of ditch was dug. The work was done on Northwest government account.

The Ladings Brothers, who represent a million dollar colonization syndicate, and are touring the west with O. Mair, government immigration agent, are expected to arrive to-night to inspect the Edmonton district. They may go on to Lesser Slave lake.

P. McNaughton was the top-notch in Saturday's practice shoot at the rifle range. The distances were 200 and 500 yards. Out of a possible 50 he made 41. A few other scores were not far behind and a steady improvement is noticeable in the work of the club.

J. Royal received the following telegram on Saturday morning from his sister, Madame Gagnon, of Montreal: "Father in hopeless condition. Death expected any moment." The news will be received with sincere regret by the many friends of Ex-Governor Royal in the Territories.

W. H. Cooper presented the Bulletin with three brace of fine ducks this morning, part of the bag made on Saturday at the Black Mud. The party, consisting of Messrs. Goodridge, Morris, Cooper and Anderson, secured 120 in all. They had a jolly outing. Game is plentiful.

Work on the spur track has progressed slowly during the past week. The big cut is not yet quite finished, and the working force has been principally concentrated at that point. At the present rate of progress the road will not be in running order before the 1st of October.

Pincher Creek Echo, Aug. 19.—The Sisters of Mercy, who have been collecting for the Edmonton Hospital in this district for the past ten days, have left for Frank. They desire to thank all those of every denomination who so generously contributed to the carrying on of the good work.

Mrs. W. S. Robertson, Misses Grace Robertson, Grace Johnston, Ethel Matheson, Northcote and Addie Belcher and Messrs. R. Robertson, Vernon Burford and W. Scott are amongst the campers at Cooking lake. The Misses Oliver and Messrs. Scoble and Acres have returned, and others are expected to-day.

Mr. McCauley returned from being rammed at Beaver lake on Saturday, coming by way of the base line. There are very few bad places on the trail now. In going out he left town at 6 a.m., and arrived at Toftfield at the south end of the lake at 8 p.m. Barley cutting is commencing at the lake to-day and crops look well. Wheat is turning fast.

A townsman who drove out yesterday to Fort Saskatchewan says that some magnificent crops are to be seen along the way. Wheat is ripening fast and several fields will be ready for the binder this week. Our informant saw no wheat in Manitoba last year to equal one of the crops along the Saskatchewan. Out, too, are an abundance of crop and two or three fields will be quite ready to cut this week.

Rabbit Hills public school held a very successful basket picnic on the grounds of R. Tyndall at the White Mud bridge on Saturday. There was a large attendance of people from the surrounding country and from Strathcona and Edmonton as well. The grounds are ideal for picnic purposes and should become very popular. A short track for foot racing had been prepared, a dancing booth erected and tables placed under the spruce trees which gave a most pleasant shade. Tables were spread at about four o'clock and foot races followed and about five the usual picnic shower looming up caused a general rush for home. Miss Durrand is teacher at Rabbit Hills.

—Train on time.

—A raft of lumber for Jas. Clunkskill, of Battleford, left Fraser's Landing last week.

—A lost clock recently advertised for in the Bulletin, awaits the owner at this office.

—Miss Irene Cummer, book-keeper for Cushing Bros., and Miss Jean Lynn, of the Strathcona Telephone office, are spending a holiday at Rabbit Hill, the guests of Mrs. Nelson Magee.

—The following new books have been received at the Public Library: The Transvaal from Within, by Fitzpatrick; Stalky & Co., Kipling; A Duet, by Conan Doyle; Houses of Glass, Lloyd; A Woman's Face, Wardlaw.

—The social on Friday night at the residence of Mr. Hugh McKay proved a successful and enjoyable event. A programme was given consisting of songs by the Presbyterian choir, and solos by Mr. Boddy and Hugh McKay who sang in Gaelic. Miss Webster contributed a pot pourri of Scotch airs on the violin. The social was in aid of the building fund of the Presbyterian church.

## NEW ADVERTISEMENTS.

**TO LET.**  
Two furnished bedrooms. Apply at this office. 86-11.

**FOUND.**  
Yesterday morning, near All Saints Church, a pair of lady's kid gloves. Owner call for same at Rectory. 86-c.

## AS TO OATS.

Now that the harvest is practically on and Alberta will have another big crop of good oats the question of a market comes up. Last year the South African war and the shortage of corn in the States combined to give us the best market we ever had. But the South African war is over, the United States has a big crop of its own, the Kootenay is still dull, and the only outlook at present is the demand from Australia caused by the drought there. In reaching this market we have the very great advantage of a direct steamship line from Vancouver, but on the other hand we are certain to have the competition of the grain which reaches the ocean at Seattle and Portland. Australia is a long distance away. The demand is an exceptional one that of the South African war, and therefore business arrangements can be only temporary. We have no business connections with Australia. On the whole it looks very much as though the intervention of the department of agriculture on the lines of last year would be more than acceptable if not actually necessary if advantage is to be taken of the Australian conditions to find a market for Alberta oats. And here occurs the suggestion that the way in which the efforts of the department were not by local dealers last year, was not such as to encourage a renewal of the effort.

However, this is no time to stand on ceremony. The oats are now in sight, of a quality never surpassed even here. There is a market there; but others are as willing and able to reach it as we. We have no corner on the Australian market this season, as we had on the South African last year. We will sell our oats in Australia only if we push the sale and get in first so that their superior quality will have a chance to tell in their favor. There is still a considerable quantity of last year's oats on hand which would answer us samples or even as a trial shipment.

Because things came our way so freely last year is no reason that they will do so this year. We cannot be up and doing too soon if we are to get the Australian trade. The Bulletin would respectfully suggest that the boards of trade and business men's associations of Northern Alberta take joint action to approach the department of agriculture for the purpose of finding out just how far the department will be willing to go in assisting the sale of Alberta oats in Australia. With that information in hand further action as circumstances would require might be taken. The railway and steamship companies would have to be seen about rates and possibly something might be done with the city of Vancouver to secure shipping conveniences there. There is no time to lose if any action is to be taken, for the market depends on the continuance of the drought and that might come to an end at any time.

## THE LAW'S DELAY.

The editor of the *Sandton Paystreak* is again at home—released from jail, where he had been placed for contempt of court. The judges who released McAdams showed a great deal more appreciation of the dignity of their position and the fitness of things than those who committed him. But still the grounds of McAdams' public complaint against the British Columbia judges remain untouched. His appeal to jail because he alluded in in temperate terms to the law's delays in that province. The public are entitled to know whether these delays are necessary and in the interests of justice or not, and the detention or release of McAdams makes no difference on that point. McAdams was discharging his duty as a journalist in calling public attention to what he believed to be an abuse. No doubt a great part of the language which he used was not justified and he deserved to be called to account for its use. But it would be a pity if in the controversy over McAdams, the object which he desired to attain by the action which he took should be lost sight of. There is still room and reason for a full enquiry by the higher authority as to the delays in law in British Columbia and throughout Canada.

## Canadian Flour in Australia.

Ottawa, Aug. 19.—The Canadian government agent in Australia, J. S. Larke, writes to the department of trade and commerce that Canadian hard flours are selling well there. He adds that a good trade might be worked up in interior quantities, which are not affected by the duty. South Australia, Victoria and part of New South Wales have had rain, but the remainder of the island is suffering from drought. Mr. Larke cautions manufacturers against loading up their travelers with top many lines as they are certain to neglect some of them.

## COAL.

What is the matter with Alberta coal? Alberta has coal deposits to supply the world, of all qualities up to anthracite. Mines are being worked on all the railway lines. And yet the coal industry of Alberta is limited and comparatively unimportant. The industry is limited because the market is limited. But how can the market for coal be limited in a country of large population and cold winters where there is no other fuel? The Manitoba cities and the towns and villages throughout Manitoba and the Northwest must use a vast quantity of coal. The deposits of Alberta are far closer to this demand than any other. Winnipeg is the most easterly and largest point of demand. It is 700 miles from the bituminous mines at Lethbridge and 900 from the anthracite mines at Anthracite. It is over 1500 miles from the coal regions of Pennsylvania and yet Pennsylvania supplies more coal to Winnipeg than Alberta. The coal is shipped from the mines several hundred miles by rail to the lakes, there transhipped to vessels, and carried to Fort William, there transhipped again and hauled 430 miles by rail to Winnipeg. There is as great a rail haul from Pennsylvania to Winnipeg as from Lethbridge and two transshipments and a thousand miles of navigation besides. This does not look as though proper efforts were being made by Canadian railroads to develop Canadian resources under ordinary conditions. But just at present the conditions are not ordinary. There is a vast strike on the Pennsylvania coal regions, and a coal famine is in immediate prospect throughout all the region dependent on Pennsylvania for coal. And even this does not seem to have perceptibly improved the position of Alberta coal. It would naturally be supposed that with coal at double prices in Pennsylvania and every prospect of an actual famine, that then if never before the opportunity to develop Canadian industry and traffic would be seized upon. But it is not so. So far is it from being so that in its latest issue the *Lethbridge News* complains that the coal company there is unable to fill orders which it has received for thousands of tons of coal because the railway will not supply cars.

## THE SOUTH AFRICAN LINE.

The news that arrangements have been made for a direct steamship line between Canada and South Africa shows that the government is alive to the needs and possibilities of extending Canadian trade.

A direct steamship service is absolutely necessary to the carrying on of successful trade with any country. Apparently there are many lines which Canada can very well supply to South Africa and it would be a pity to miss the opportunity for lack of the expense necessary to secure a direct service. In this connection it may not be out of place to remark that there is a vast difference between a freight service to South Africa and a fast line to Britain. There is great need of improving the freight rates and facilities between Canada and Britain, but the fast line project would give the minimum of advantage in this regard at a maximum of expense. The South African line is of course only experimental, but it is calculated to give a maximum of results at a minimum of expense.

## Government Ownership of Elevators

At a recent meeting of the directors of the Moose Jaw agricultural society a memorial was submitted by Wm. Watson of Macleod, in which he advocates government ownership of elevators for the Northwest Territories.

A government system, says Mr. Watson, on the lines of the Northwest creamery system is a present, pressing, imperative necessity. The want of system or corporate and collective selling and shipping of wheat in train and ship loads, and placing our grain in large quantities on the British and other markets without mixing with softer grains or otherwise shading or lowering the sample, lessens the value of Northwest and Manitoba red fife wheat, and cannot be overcome or averted without united action, necessitating quasi government purchase and control. There are in Manitoba and the Northwest Territories about 200 elevators. Their approximate value is \$6,000,000. According to the government estimate the exportable surplus of last year's crop was 60,000,000 bush. A tax of 1¢ per bushel on the above surplus would give \$600,000, the purchase money in full of the 200 elevators, or with about \$150,000 added or \$750,000 or a million dollars in all would build 200 elevators with latest improvements. This amount, with interest, spread over 5 or 10 years, taking the increased area to be brought under cultivation into account, could be paid with a tax per bushel so small as to be unfeelt.

The effect for good of the scheme outlined would be felt first by the farmers and next by professional and commercial men, by railroad men and tradesmen, laborers and every class in the community. The money over and above a fair and legitimate generous profit now going into the pockets of a few capitalists, would be shed abroad throughout the land. Every dollar farmers earn the next decade will be spent in building, fencing and improving their households and surroundings, purchasing necessities and luxuries, and in increased interest in educating their children and in providing more fully for the maintenance of public worship and religion in the land, as "hoarding" time has not yet arrived.

## BINDER SALES.

The local dealers in farm machinery are doing a rushing trade. Orders for binders and twine are coming in at such a rate as to indicate an unusually heavy harvest. One firm sent out 14 binders last Thursday. Twine is this year unexpectedly high. The prevailing prices are from 14¢ to 17¢ and 18¢. These prices, according to one dealer are 2¢ lower than the wholesale figures warrant. The cut is made on account of the keen local competition.

## Tuesday's Storm in Dakota.

Grand Forks, N. D., Aug. 19.—From parties arriving from the north last evening, it was learned that, as a result of the severe storm which passed over the northern portion of the state Sunday afternoon, three persons were killed near Rolla.

They are not known, as they are members of a family of law-owners. Owing to the telegraph wires being broken down by the storm it is impossible to estimate the damage done in the vicinity of Rolla.

## EDMONTON INDUSTRIAL EXHIBITION ASSOCIATION.

## NOTICE.

Every shareholder who is in arrears is hereby warned that every share held by them will be cancelled if balance due is not paid by them, in person, on or before Friday night, the 25th inst. ## THE PUBLIC LIBRARY.

The bright and cheerful rooms of the Public Library were visited by a representative of the Bulletin on Saturday morning. In its new quarters in the McLeod block, it is centrally located and gives promise of increasing usefulness as its resources are enlarged.

The first room entered by the visitor is the free reading room. This is open to the public from 10 to 10 on week days, and from 2 to 6 on Sundays. It is provided with a creditable array of newspapers and periodicals. Among the newspapers are the Winnipeg and Toronto Dailies and La Presse. The two local papers and weeklies from the Northwest and British Columbia towns bring the total up to sixteen. Among the magazines on the reading desk were the Canadian Magazine, the American Monthly, the Nineteenth Century, The Edinburgh Review, The Argosy, The Strand, Pearson's, The Wide World, The London Magazine, The Ram's Horn and The Ladies' Home Journal. Other magazines have been ordered and will be added to this list in a short time. One cannot enter this room at any time of day without finding a few people making use of its advantages. Visitors spending a few days in Edmonton frequently look in to read the eastern papers, or to pass a profitable hour among the magazines. The light, admitted through two skylights, is admirable.

Communicating with the reading room by folding doors is the library proper. This room is accessible to members only. It is at present provided with bookshelves, two tables and a few chairs, but in a short time will be more elaborately furnished. On the shelves are books whose immaculate covers proclaim the tender age of the institution. In little groups that crowd together for company are a few of the works, immortal and otherwise, of Fiction, of Poetry, of Science and Art, while on the librarian's list are blank pages devoted to History, Biography, Theology, Travel, Mineralogy, Metaphysics, Homiletics and other titles and topics. These blank pages, however, with their anticipative headings, attest the faith of its founders in the institution. As the vacuum in its pages gives way before the increasing contributions of the public, the blanks will fill with honored names, and well bound quartos and folios will reinforce the little array already put into action. Altogether, one hundred volumes are at the disposal of members as books of reference or for circulation.

A glance at the history of the institution, or Institute as it must now be styled, will show that its progress during its very brief existence has been most creditable. Dating its history from an auspicious day, it came into organized being on the first day of the century. At the century's end who can say how great its resources may be, or how large a public it will be valuably serving? The first reading room was opened on the 17th of January, 1901, in the building now occupied by Dr. Jamieson. Its first committee was composed of A. T. Cushing, chairman, Geo. Bellamy, treasurer, and Geo. Goodall, secretary. Its present officers are A. H. Cushing, chairman, W. T. Williamson, treasurer, and Geo. Goodall, secretary. As already announced in the Bulletin, a new election of officers will take place on Sept. 9th. The librarian and caretaker is R. W. Armstrong, an enthusiastic bibliophile. The library is open every Wednesday and Saturday from 6:30 to 9 p. m.

At first maintaining only a reading room, the society last March was organized into a Public Library and Mechanics' Institute. Accordingly it will fill all add to its functions, the holding of lectures and debates, open to members. By throwing open the folding doors between the two rooms a comfortable and commodious lecture room will be obtained. Quiet games such as chess or draughts will also help members to while away the long winter evenings.

The funds of the institute are drawn chiefly from the membership fees. At present there are eighty-five members at an annual fee of three dollars. Some of the church societies have given liberally in the past and private contributions have not been altogether wanting. Last week, too, the council, made a grant of \$100 to the Institute. Before the library, however, can rise to that degree of usefulness its promoters hope for, it must have a much larger list of subscribers. The good showing already made in so few months augurs well for rapid improvement in the future.

The Bulletin wishes all success to the unselfish efforts of the committee and other members of the Public Library and Mechanics' Institute.

The Canadian Northern crop report for the week ending Aug. 16th, is very optimistic. The continuation of the cool weather, it says, has filled the heads nicely and ripening has taken place slowly, thus allowing more development. In many localities the crop is considered one of the best ever raised. Cutting has started but will not be general till next Monday, as there have been unexpected delays. The farmers are getting ready for one of the heaviest crops ever harvested in Manitoba.

From Carman comes the report; Cutting has commenced and will be general on Monday, the 18th. Yield will be larger per acre than for many years.

## AGRICULTURE.

A new bridge is being built across Point aux Pins creek between sections 27 and 28 and another across the same creek in the south of township 53, range 22, between section 19 and 15. Application has been made by T. G. Pearce, overseer, of this district for two other bridges to be built in the southwestern part of the township at S. Ottewill's and J. Daly's farms.

The drain through J. Atkinson's and A. Boag's farms has been commenced, but owing to the unnecessary delay in commencing the work it is not likely that it can be completed this year as it is difficult to get men so near harvest.

This drain was surveyed a year ago, yet no instructions were received to commence work on it, until last week, although the main road is impassable and will be until the ditch is completed.

Travelers will do well to avoid driving on the road allowance from the bridge to J. Atkinson's going north.

## BEAVER LAKE WEST.

R. N. Whillans, of Toileid, P. O. Beaver lake settlement, was in town on Friday. He came by the trail around the hills and says it is now fairly good. He left Toileid on Tuesday. Barley was then being cut and wheat and oats would be ready in a week. Hay is plentiful west and south of the lake, but southeast towards Bittern lake, it is light.

Many new houses have been erected in the settlements west of Beaver lake this season. Amongst them are the following: R. A. McKenzie, John Phillips, Henry Woods, Wm. Woods, Jeremy Gladu, Sr., Jeremy Gladu, Jr., M. McCauley, R. N. Whillans, Wm. Thompson, John Willis and J. Harriman.

Measurements are being taken for a new bridge over Katchemoot's Creek. The old bridge was so damaged by high water as to be useless.

Logan school closed on Aug. 16th for the holidays.

A heavy hail storm passed between Toileid and Northern post offices on Monday, Aug. 18th. It injured the crops of Messrs. Henderson, Owens and Mitchell, on Sections 11 and 12 of 59-19. It then skipped to the same numbers in 50-18 and damaged the crops of Messrs. Moline, Anderson, Bolton and Berg.

The small pox trouble which exists east of the lake has not extended to the west side except in the case of the family of Joseph Norn, who are quarantined. The illness is very mild.

## THE NAMAO PICNIC.

We are indebted to a correspondent signing himself Sunnyside for the following:

On Wednesday, Aug. 20th, 1902, a picnic was held at Namao under the auspices of the Methodist church.

A somewhat large programme had been arranged, but, owing to the failure of some of the participants to turn up, it was curtailed. A football tournament was expected to take place. Popular lake having been invited by the sports committee to play Sturgeon and Sunnyside to play Bon Accord, the winners to then play for a prize. Popular lake and Bon Accord both failed to present themselves and so Sunnyside and Sturgeon considering them beaten, played for the prize (a football). Wellington Stewart and his gallant men put up a brave fight, but fell back before Kitchener Hall and Bois MacIntyre, whose knowledge of South African tactics of fighting on uncultivated wilds served them in good stead. Sunnyside won by 2 to 0. The Waterloo heroes will have a chance of fighting on ground more like the famous battlefield of 1815, when they play the return match.

Wheat cutting will be general near Portage la Prairie by Aug. 22nd. Some barley was already cut and threshed there Aug. 16th.

## STRATHCONA.

Wetaskiwin, Aug. 22.  
The new Baptist church at Leduc is to be opened on Sunday, 31st inst.

Mr. A. E. Lee, of Dawson City, arrived on Friday last on a visit to friends in Edmonton and Strathcona. He is at present the guest of Mrs. P. C. Jamieson, of Strathcona.

This morning Mr. A. C. Rutherford, M. L. A. wife and family, Mrs. Rutherford and Miss Berket, of Ottawa, arrived in Edmonton and Strathcona. Mr. Rutherford, of Smith's, has formed a party for Banff. Mr. Rutherford and family expect to be in Banff about two weeks. Mrs. Jarman and Miss Berket will return from Banff to their home in Ottawa.

The new boiler for the electric light works arrived this week and is now as it is ready for use. The engine and dynamo and the boiler are now being transferred to the new power house. Electrician Powers is doing the wiring and the boiler is being put in place. The present plant will be pretty well loaded this fall.

The Strathcona football club has accepted an invitation from the Calgary club to play at Calgary during the fall there Sept. 1st, 2nd and 3rd. The Strathcona boys are the banner team of the town this year and will doubtless give a good account of themselves in the south. A fund is being raised among the business men of the town to defray the expenses of the team on their trip.

At a meeting of the directors of the South Edmonton Agricultural society held on Saturday last Mr. Donald Ross, of Edmonton, was authorized to be the society's representative at the Horticultural exhibition to be held in Winnipeg on the 28th and 29th inst. Mr. Ross will take a fine exhibit of vegetables, native fruits, honey, etc., and is anxious to have the society's specimens from last year supplemented by specimens from other members of the society. He leaves for Winnipeg on Monday next and would like to have all the exhibits at his place in Edmonton by tomorrow, Saturday, afternoon so he can pack them securely for shipment.

## WETASKIWIN.

Times, Aug. 21.  
A telegram arrived on Monday evening announcing the death of Miss Robson at the Brandon asylum. About three months ago she began to feel unwell and visited the hospital at Edmonton. She seemed to get well but after her return she began to show signs of insanity.

At the Lacombe races last Saturday Frank Hamilton's bay horse won money in every race it entered. It was second in both the half-mile and one mile events and won the third quarter in the novelty.

Messrs. Wodin, Kadlec and Oteson have leased the building erected on east Railway street and will commence a general store business about Sept. 15th. They will carry an up-to-date stock, and solicit a liberal patronage.

School re-opened Monday with a large attendance and with a staff of good teachers. Miss J. F. Robinson is principal, and has charge of the senior classes; Miss Burgar has the second and third classes; Miss Brown the part second and junior sections, while Miss Beirson has the primary classes.

A terrible hail and wind storm passed over this section on the 11th of August, destroying everything in its track. The crops were totally destroyed, also the grass, a great many windows were broken. The width of the storm was about three and one half miles. We have not learned the length of it yet, but it extended over quite a track of country covering the north half of township 46-20. Farmers would do good to insure their crops.

## INRIFFALL.

Free Lance, Aug. 21.  
Holmes Bros. opened up their butcher shop in the east end last week. This afternoon Mr. George Kirkham brought in a sample of oats which is within an inch of six feet long.

The C. P. R. has advanced the pay of all section hands to \$1.40 per day, coming into force on August 1.

The following are the prevailing prices in town this week for farm products, etc.: Butter 12-12c, eggs 20c, old potatoes 60c per bush, new potatoes \$1.20 per bush, pork 7c, beef 5-12c, new hay \$4 per ton.

On Monday, before Magistrate Douglas and Rogers, Arthur Boyd was charged with having unlawfully carried a revolver on his person. The accused, who pleaded guilty, was fined \$5 and costs.

## HOTEL ARRIVALS.

Friday.  
Alberts—B. J. Saunders, Regina; T. Long, Toronto; Herbert Pearce, Calgary; W. A. Richards, Winnipeg; Thos. Fyche, Montreal.

Queen's—S. W. Anderson, Chas. E. Stewart, Jas. E. Chisholm, John H. Whitson, Fort Saskatchewan; G. W. Canaday, Helena, Mont.; O. Morhouse, Dayton, Wash.; J. H. Serrill, Mont.; Chas. McKay, Enderlin, N. D.; E. S. Ryan, John McNamara, J. G. McNamara, Jas. Butler, T. J. Wilson, Moose Jaw, Sask.

Grand View—Mrs. O. Tratt, Harry F. Penley, Lacombe; J. W. Gilman, M. H. Webb, C. Becke, Spruce Grove; G. H. Crosswell, H. Allen, Edmonton; Frank G. Haldane, Ottawa.

Victoria—Mrs. Turnbull, Calgary; Louis Gagne, Stony Plain; M. Lenoir, St. Albert; M. D. McMillan.

## Territorial Gazette.

The Northwest Territories Gazette of July 31st, contains notice of the appointment of Herman A. Johnson, of Wetaskiwin, to be noxious weed inspector.

The following members returned to serve in the legislative assembly are also gazetted:

John William Shera, for the electoral district of Victoria.

Michael Secord, for the electoral district of Edmonton.

Alexander Cameron Rutherford, for the electoral district of Strathcona.

Daniel Maloney, for the electoral district of St. Albert.

The following notices of the erection of school districts is given:

The Eureka school district, No. 317, including sections 17, 18, 19, 20, 29, 30, 31 and 32 in township 42, range 23, and the east halves of sections 25 and 26 in township 42, range 24, west of the fourth meridian.

The Westward Ho school district, No. 718, including sections 30 and 31 in township 30, range 2; sections 25, 26, 27, 28, 33, 34 and 35 in township 30, range 3, and sections 1, 2, 3, 4, 9, 10, 11 and 12 in township 31, range 3, all west of the fifth meridian.

The Massfield school district, No. 716, including sections 30 and 31 in township 34, range 20, sections 25, 26, 35 and 36 in township 35, range 21, sections 5, 6, 7, 8, and the south halves of sections 17 and 18 in township 55, range 20, and sections 1, 12 and the south half of section 13 in township 55, range 21, west of the fourth meridian.

The Saint Eugene school district, No. 719, including sections 21, 27, 28, 33, 34, 35, and those portions of sections 25, 26 and 36 lying west of the Saskatchewan river in township 55, range 22, that portion of section 31 lying west of the said Saskatchewan river in township 55, range 21, sections 1, 2, 3, 4, 9, 10, 11, 12, 13, 14, 15, and 16 in township 56, range 22, and section 18 and those portions of sections 5, 7, 8, and 17 lying west of the said Saskatchewan river in township 56, range 21, all west of the fourth meridian.

The following school districts have been empowered to borrow:

First Creek Protestant public school, No. 84, six hundred dollars.

The Edwell public school, No. 335, eight hundred dollars.

Millet public school, No. 555, four hundred dollars.

The Grand Meadow school, No. 671, five hundred dollars.

The Beddington public school, No. 570, five hundred dollars.

The Auburn Protestant public school, No. 141, two hundred and fifty dollars.

Notice is also given that certain lands in the Municipality of the town of Edmonton will be offered for sale at the rear of taxes at the town hall, Edmonton, at 10 a. m. on the 30th day of August, 1902, a full list of which lands with particulars will be found in the issues of the Edmonton Bulletin of June 16, 23 and 30 and July 7, 1902.

Manitoba Weather and Crops.

Commercial, Aug. 16.—The weather and conditions of the crops leaves nothing to be desired. The week has witnessed a great advance in the ripening process and wheat cutting has commenced in many parts of the country. Another week will see cutting in progress all over southern Manitoba and in two weeks the harvest will be general. The grain is maturing splendidly and will yield a magnificent crop in all parts. There are scarcely any exceptions to the general chorus of favorable reports. Barley and oats will also be a good crop in all parts and considerable of the barley has already been cut. Some of it is now in the stack. Oat cutting is also in progress. From a few places rust and smut are reported in the wheat, but the amount is small. A little of the grain is lodged. On Sunday night last the weather was very cool and frost was feared, but only one point reports a temperature low enough for that and no damage was done.

The New Line's First Cargo.

Montreal, Aug. 19.—Representatives of the three steamship lines interested in the new South African service, held a joint meeting yesterday afternoon, and decided on the rate to be charged for the shipments of goods to those colonies.

The rates agreed upon are five per cent, lower than those obtaining at present via the New York route. From present appearances the Ontario line, the first ship to sail in October, will have a very full cargo.

The Ogilvie Milling Co. will ship ten thousand bags of flour. The Lake of the Woods Co. will also send a large consignment of flour, and the Rathburn Furniture Co., of Deseronto, will ship a consignment of furniture.

Enquiries are being made for space for a large quantity of hard Canadian apples and other winter fruits, as well as for space for all kinds of general merchandise.

The Lake of the Woods Milling Co. has appointed C. M. Kilson, of this city, as permanent representative in South Africa. It is understood that Mr. Kilson will go on the Ontario.

## A RINK FOR WETASKIWIN.

A meeting of the business men of Wetaskiwin, according to the Times, was held on the 14th inst., for the purpose of forming a stock company to erect a skating and curling rink. A committee was formed and a stock sheet has been opened. The 150 shares required to be sold before application for incorporation will be made are being rapidly subscribed. The stock of the company will be \$3,000, with a subscribed capital of \$1,500.

## HAIL AT LACOMBE.

### THE HARVESTER COMBINE.

The organization of the International Harvester Company is an event of immediate concern to farmers of the Canadian west. The list of firms entering the combine is significant. They are all western. They include all the American firms doing any considerable business in harvest machinery in Canada, and no other. The whole transaction bears out the idea that the combination was effected with the Canadian market specially in view. Further, its consummation follows closely upon the installation by the Deering Co. of a manufacturing plant in Hamilton, Ont. So direct an invasion of the Canadian field called for immediate action on the part of the competing firms still outside the tariff wall.

The Canadian press has devoted some space to comment on the deal. According to political bias the Canadian farmer or the Canadian manufacturer has been the object of editorial concern. That both manufacturer and farmer will feel the effects of the new arrangements there is no room to doubt. At third class is perhaps more radically affected than either. It is composed of the army of middlemen—agents, collectors, &c.—engaged in the sale of harvest machinery.

With a view to getting the opinions of practical men on the subject a Bulletin representative called last week on the local implement dealers. All are keenly interested in the situation and talked freely of its bearings on the trade in Edmonton.

In one thing they were unanimous. The western farmer is bound to be the gainer.

Thos. Bellamy, agent for the McCormick company, had received no definite information as to the plans of the new company. By a circular letter he had been advised of the change. "For the last few years," says the circular, "the materials we use in manufacturing have advanced steadily. We are led to believe that the cost of materials will be still higher, and we are therefore confronted with the alternative of raising our prices or of adopting some other practical remedy. The new corporation can avoid the necessity of raising prices to the local dealer and the farmer."

"The evident object of the combination," said Mr. Bellamy, "is to effect a saving in operating expenses. A reduction of competition means a reduction of bad sales. Selling agents all the way through will be cut off. I should not be surprised if at least three of the local dealers were dropped in a year or two. Reducing the selling agents means reducing the collecting agents. Economy in operating means lower prices to the buyer, and the farmer is bound to reap the benefit."

There is a probability that eventually, as crops are the surplus stock of steel frameworks is exhausted the different machines will be merged into one model as in the case of the Massey-Harris. Of course it will take a couple of years to get down to a final working basis."

Geo. Gilmer, agent for the Champion machines, was seen at his office. M. N. Jordan, general agent for Alberta, British Columbia and Western Assiniboia, dropped in opportunistically during the conversation. Yes, prices will undoubtedly be lowered by the amount of the duty formerly paid by the farmer," was his statement of the case. "American binders now cost the manufacturers more than do Canadian machines, owing to the duty. Under the new management there is a strong probability that they will compete on more equal terms with their Canadian rivals."

"To raise the tariff? It would simply put money in the pockets of the Canadian manufacturers at the expense of the Canadian farmer."

"Do you think," was asked Mr. Gilmer, "that the present price of supplying repairs to machines will be followed as heretofore?"

"Without any doubt," was the reply. "Repairs will be kept for all the models now manufactured by the separate concerns and supplied as in the past by the new firm."

"Will the firm you represent manufacture in Canada?"

"Not according to a circular letter I have received. It states that Champion machines will still be made in the factories at Springfield. They will be sold under the same name and through the same organization as heretofore. It is the intention of the International Harvester Co. not to advance prices, but to institute some economies and reforms in the manufacture and sale of machines."

"Concerned about it?" said J. Kelly, of Kelly & Beals. "Well, no. We wel-

come it, rather. It will merely mean the removal of an army of canvassers and collectors. The farmers will get the benefit. The Canadian manufacturers? I don't see how they can suffer. The only loss will be to the revenue of the country. Every binder crossing the line now pays a duty of \$20. The new concern will undoubtedly manufacture in Canada and avoid the payment of this tax. Yes, you may say there is no danger of the Frost & Wood Co. being absorbed into the big concern. Anyway I don't think it is the intention to destroy Canadian competition but merely to reduce operating expenses."

W. J. O. Beaudouin, of the Deering Implement Co., agents for the Deering Harvester Co., was still in the dark as to the working out of the new scheme. He agreed, however, that the farmer is likely to be benefitted for a few years at any rate. The Deering Co. having established a factory in Hamilton would be in a position to sell cheaper than heretofore by the amount of the duty they have hitherto paid.

As the representative of a firm that will still have to meet the competition of the combine, Mr. Harkness, agent for the Massey-Harris Co., was guarded in his statements. He believed its objects to be the reduction of operating expenses. "Yes, prices will in all probability come down," was his opinion.

J. T. La Boudiniere, representing the Plano Co., said he had received the changes. "The International Harvester Co." according to the letter received, "owns its own lands and mines, its forests of timber, blast furnaces, steel mills, its harvester factories and engine mills and hopes to control and keep down the prices of raw materials. It can also effect a great saving in the cost of selling and distributing."

### LOCAL

—C. V. Johnson, of the Union Bank here, is to be shortly transferred to the Regina branch.

—J. Milner has placed in the immigrant hall two specimen stalks of "Windsor" wheat. The stalks are three feet six inches high. One stalk has fifteen pods and the other thirteen.

—T. McNamara, operator in the town telegraph office, was notified last week by Supt. Jenkins, of the C. P. R. telegraph service, that heretofore notice of the hour of arrival of trains would be bulletined at the town office.

### THREE BIG RINKS.

Plans are almost completed for the big rinks to be erected by R. Secord, M. L. A., this fall. There will be three rinks in all, for hockey, curling and skating. The curling and hockey rinks will be ready for use this winter, and both the devotees of the "roarin' game" and the puck chasers will have commodious and up-to-date buildings.

The site chosen consists of five lots north of Jasper avenue, between First and Second streets, H. B. It will have a total frontage of 1250 feet with a depth of 150 feet.

The hockey rink will have a clear sheet of ice 60x100 feet. The roof will be supplied by semi-circular trusses. Galleries will run all round the building. It will be provided with comfortable dressing rooms, and when completed will be the finest rink in the Northwest Territories.

Closely adjoining the hockey rink will be the curling rink, 65x180. It will have three separate sheets of ice where the stones may slide and become sweep uninterrupted by skaters.

To the rear of these two will be the skating rink. The season for building is nearly so far advanced that it is probable it will be completed before next year, but work on the curling and hockey rinks will be rushed. The buildings will be frame on a brick foundation. It is Mr. Secord's intention to make them up-to-date and complete in every respect and Edmonton will soon possess facilities for winter sport unequalled west of Winnipeg. H. D. Johnson is the architect.

**NEW BANK BUILDING FOR STRATHCONA.**  
The Imperial Bank will shortly have handsome and commodious quarters at Strathcona. The architect, H. D. Johnson has already completed the plans and work on the new building will be commenced at once. It will be a two-story building 38x55 feet, with a basement under all. The ground floor will be divided into the manager's room, a customer's vestibule, a private vestibule for the staff, and the banking room. The first floor will be private, containing sleeping apartments for the staff.

### WEATHER AND CROPS.

Drizzling rain fell on Monday last, Aug. 18th, and Tuesday was cloudy, but the remainder of the week was ideal weather for ripening grain, except that a splash of rain occurred on Saturday evening. Oats are turning nicely and in early locations a good deal will be cut this week. Early sown barley is ripe everywhere, but there is very little of it. Wheat is turning nicely but is scarcely as far advanced as oats. The heads are extra well filled and there is no doubt that crop might safely be cut greener this season than last when, owing to wet weather it was more watery. The outlook has never been more favorable than at present.

### THE WATERWORKS.

The work of trenching was commenced near the land office this morning and will be continued westward to the General Hospital. The work on Fraser avenue was completed on Saturday afternoon, the pipe being laid and the trench filled in.

The sewer is almost completed. From the timber outlet to the manhole on Jasper avenue.

### BON ACCORD.

Through the kindness of John Schofield, weather observer at Bon Accord, the Bulletin is able to publish the weather record at that point. Fractions are omitted:

## The Alberta Land Company

Has 20,000 acres of as fine land as can be selected in Beaver Lake, Vermilion and Birch Lake country.

These lands are adapted to both raising grain and stock. There are three lines of proposed Railroads running through this part of the country. These lands can never be bought cheaper than now. We are selling every day and they are not going to last long. Improve the opportunity and place your money where you are sure of securing a good profit by the investment.

Many invest in Mining, some in Oil, some in Bonds; only a few reach the goal; the rest find their hard earned money gone, only a piece of nice paper to tell the story. Why not buy a piece of land one-half mile [ ] to look at and see it increase from year to year in value until it makes you and yours a nice little fortune? It will surely come. It is only a question of time.

We solicit your trade. Call or write and get maps and information of these cheap lands.
